

Spanish troops in Latvia Lead a Breach Opening Operation

International Military Agenda

[A delegation of the US Under-Secretariat of Defence for Space Policy visits the CAOC TJ](#)

The visit is part of the meetings of the US delegation with national and international organizations of interest for collaboration in aerospace defence.

The bilateral meeting between technical staff from CAOC Torrejón and the North American Under-Secretariat of Defence for Space Policy takes place within the framework of meetings held by the aforementioned delegation with their counterparts in NATO.

[Spanish military train the Senegalese Armed Forces in precision firing](#)

Members of the Air Force Parachute Sapper Squadron teach precision firing methods and procedures to their Senegalese counterparts.

Spanish soldiers from the Air Force Parachute Sapper Squadron, under operational control of the Operations Command, provided tactical training in precision firing to the Senegalese Armed Forces within the framework of the Cooperative Security activities in which Spain takes part, proving our Armed Forces' commitment to an important ally, such as Senegal, and the stability of the country is also supported.

Sea Guardian

Frigate 'Reina Sofía' joins 'Sea Guardian' Operation

Frigate 'Reina Sofía' set sail from the Rota Naval Base to join NATO's Operation 'Sea Guardian' until July. During this period, the Spanish frigate will take command of TG 440.03, collaborating in the area of operations with aircraft from the Spanish Air Force and the Italian submarine ITS Scire.

eFP (Latvia)

Spanish troops in Latvia lead a breach opening operation

eFP X contingent's Spanish personnel deployed in Latvia took part in the 'Ponte Anido' breach opening operation, in which all the current multinational Battle Group's combat capabilities were integrated, with said exercise being led and planned by Spanish staff.

The 'Ponte Anido' exercise had a certain complexity due to the integration of the different participating units and the accuracy in the execution of the coordination measures.

DAT VILKAS (Lithuania)

NATO's BALTIC AIR POLICING (BAP)

Spain's Defence Staff Headquarters has multiple channels to disseminate StratCom. One of them is its own Youtube channel, where everyone can get an approach to all operations where the Spanish Armed Forces are involved in.

In this video, edited by the EMAD's StratCom Office, you can watch selected footages of the Spanish troops deployed in the Baltic countries.

EUTM - RCA

The current EUTM RCA contingent completes its Training Operational Cycle

The current contingent of EUTM RCA, which includes Spanish military, implemented for the first time during its rotation in EUTM RCA, the Training Operational Cycle (TOC).

It is aimed at complementing the national pre-deployment training of the different contingents with the different specific procedures and contingency plans that the mission has.

EUNAVFOR 'ATALANTA'

Frigate 'Numancia' takes over from the frigate 'Canarias' in the European Union's Operation 'Atalanta'

The main tasks of Operation 'Atalanta' are to prevent piracy and protect vulnerable maritime traffic, such as the World Food Program ships.

Frigate 'Numancia' docked in the port of Souda (Greece) after four days of sailing from the Rota Naval Base. The frigate joins EUNAVFOR Somalia in the framework of Operation 'Atalanta' which takes place in the waters of the Indian Ocean.

EUTM-MALI

The Spanish contingent in Mali relieves its personnel to keep on with the mission

The departure of EUTM Mali XIX members and the arrival of the new rotation completes the replacement of the Spanish contingent.

Major Rubén Sastre Berrocal handed over command to major Juan José Ríos Gómez during the ceremony after the arrival of the Mali Helicopter Unit members at Camp Senou. The Protection Force was also relieved.

This Helicopter Unit is mainly made up of personnel from the Army Airmobile Forces (FAMET in Spanish) and its main mission is intratheater airlift for the EUTM Mali mission, both personnel and equipment.

UNIFIL (Lebanon)

Spanish military restore the supply of drinking water in a school in Ain Arab

This project is linked to a previous one, thus optimising investments and reaffirming both Spain's commitment to the Lebanese people and the reliability before UNIFIL.

In the Lebanese school of Ain Arab, a town in southern Lebanon, a project that improves the supply of drinking water to the school was inaugurated. This work optimises previous investments in the facilities and it proves the Spanish Armed Forces' commitment with Lebanese people, specially with children.
